Fiber Discs

Organization for the Safety of Abrasives

Inter Abrasiv Fiber discs are electrostatically coated to a heavy duty vulcanized Fiber backing. They have long life, cool cut and rapid stock removal ability with a range of diameters, grits and hole types.

Packed in a 25 piece box, placed in a 250 piece master carton.

AF 581

Backing : 0,8 mm. Vulcanized Fiber
Grain/Coating : AO
Grits : P16-120
Diameters : 100mm./115mm./125mm./150mm./180mm./230mm.
Applications : Metalworking, Woodworking
Hole Types : Crosscut, Depressed and Roundhole

SF 581

Backing : 0,8 mm. Vulcanized Fiber
Grain/Coating : SC
Grits : P16-400
Diameters : 100mm./115mm./125mm./150mm./180mm./230mm.
Applications : Stone, Granite, Rubber, Plastic
Hole Types : Crosscut, Depressed and Roundhole

ZF 581

Backing : 0,8 mm. Vulcanized Fiber
Grain/Coating : ZA
Grits : P16-120
Diameters : 100mm./115mm./125mm./150mm./180mm./230mm.
Applications : Metalworking, Steelworking
Hole Types : Crosscut, Depressed and Roundhole

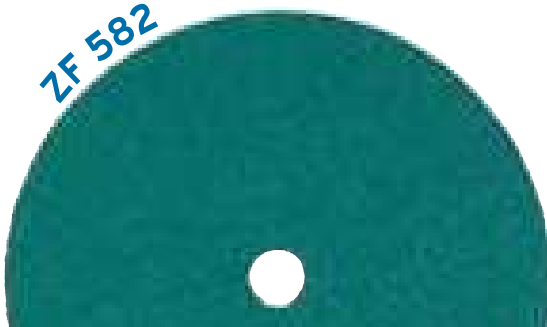

ZF 587

100% ZA

Backing : 0,8 mm. Vulcanized Fiber
Grain/Coating : ZA
Grits : P16-120
Diameters : 100mm./115mm./125mm./150mm./180mm./230mm.
Applications : Metalworking, Steelworking, High Material Removal
Hole Types : Crosscut, Depressed and Roundhole

ZF 582

Backing : 0,8 mm. Vulcanized Fiber
Grain/Coating : ZA
Grits : P16-120
Diameters : 100mm./115mm./125mm./150mm./180mm./230mm.
Applications : Metalworking, Steelworking, Alloys
Hole Types : Crosscut, Depressed and Roundhole

CRF 532

More Better Faster

Backing : 0,8 mm. Vulcanized Fiber
Grain/Coating : CR
Grits : P16-120
Diameters : 100mm./115mm./125mm./150mm./180mm./230mm.
Applications : Metalworking, Stainless steel, Alloys
Hole Types : Crosscut, Depressed and Roundhole

Paper Rolls & Sheets

Interflex latex and dry sandpaper sheets are designed for maximum flexibility and wet / dry applications. Packed in a 100 piece box, placed in a 1000 piece master carton.

Sponge rolls are handy, easy-to-use products with a user friendly packaging suitable for hand finishing applications, woodworking in particular.

Each sponge roll is 115mm wide and 50m long.

Interflex redefines the good old sandpaper

Sand Papers

Applications	: Wood, Automotive, Sanding of Filler, Polyester, glass fiber, Sanding of lacquers Pre-polish work Dry/wet hand use applications
Grain	: SC - AO
Dimensions	: 230 x 280 mm (9"x11")
Grits	: P60-1000
Type	: Waterproof Paper, Dry Paper

Sponge Rolls

Applications	: Wood, Automotive, Sanding of Filler, Polyester, glass fiber, Sanding of lacquers, Pre-polish work advantage of soft surface feel
Grain	: SF
Dimensions	: 115 mm x 50 m
Grits	: P60-600
Type	: Gold and Platin Paper on Sponge
